- Architecture
- Engineering Services
- Design and Build Contractor
- BREEAM
- Fire Engineering
- Acoustics

Aura were required to provide a facility that was suitable for education in the future and eliminate issues caused by the inappropriate site layout.

The vision of the school was to provide a transformational learning environment suitable for the 21st Century to improve the life chance of young people in the West End of Newcastle Upon Tyne.

Aura were engaged by Newcastle City Council to deliver this project as part of phase 2 Newcastle Building Schools for the Future scheme.

The original school was built in the late 1950's spreading across three isolated buildings housed on a large site.

The building was taken into use by the school totally snag free. The project achieved a clear pass with the following areas successfully achieved;

- Improved accessibility
- Design quality
- Sustainable design
- High standard of construction
- Outturn costs
- Minimised disruption to the school
- Reduced construction waste
- BREEAM targets
- Delivery on time

The Walbottle Campus has been totally transformed and is held up as an exemplar school.
